Agilityi0 company

Jun 2023-May 2024

INTERN

- Training Front-End technical: HTML, CSS, JavaScript, TypeScript, ReactJS
- Training Back-End technical: NodeJs, MongoDB, Docker
- Code management with Git
- Capstone project with MERN stack

PROJECTS

Fish's Freshness Detection	BUILDING MODEL FOR CLASSIFICATION AND SEGMENTATION
Sep 2022-Jun 2023	Computer Vision
Science Research project	TENSORFLOW, ROBOFLOW, KERAS, YOLOV5
5 people	A project is creating an application to detect fish freshness with the help of AI. I took on the role of performing data preprocessing images to avoid unnecessary data for freshness detection.
Co-vélo	FULLSTACK DEVELOPER
Dec 2022-Jun 2023	Back-end, Front-end
Group project	PYTHON, REACT NATIVE, DJANGO, POSTGRESQL
7 people	This is a side project with the idea of creating a bicycle rental system to help students and professors move around the university campus. I take on the main role of implementing the back-end service for this system.
Football Field Booking and Management System	FULLSTACK DEVELOPER
Mar 2024-Jun 2024	Font-end, Back-end
Graduation Project	NODEJS, TYPESCRIPT, MONGODB, DOCKER, REACTJS, TAILWINDCSS
2 people	A project is creating a system to help people find and book football fields, help field owners manage their football fields, and find potential customers.

CERTIFICATIONS

2021
Certificate of participation in the Maze Runner Robot Competition
2021
Certificate of Completion of the Master Your Career Training program of LEAD academy
2022
Certificate of Completion of the Internship Program at Code Engine Studio Company
2022
DELF B2 certificate of French language proficiency

EDUCATION

Oct 2016–Jun 2019

MAJOR: SPECIALIZING IN PHYSICS

Le Quy Don High School For The Gifted, Danang City

Third prize in the City Physics Competition for excellent students at Danang

Oct 2019–Jun 2024

MAJOR: SOFTWARE ENGINEERING

Danang university of Science and Technology

Studying at Programme de Formation d'Ingénieurs d'Excellence au Vietnam

HONORS & AWARDS

2022

Publication at ISAT-21 scientific conference

2022

Publication at REV-ECIT scientific conference

2022

The First prize in scientific research from Danang University of Science and Technology

2023

The Third Prize for Ideal Prize in The Inaugural International ASEAN Smart City Symposium: Experiences and Innovations (ISSCEI 2022)
